VANSH BHATI

B.Tech Student

+91-8305590122 • vanshbhati522@gmail.com • Linkedin • GitHub • Indore ,(M.P)

Summary

Final-year B.Tech Computer Science student with hands-on experience in Data Science and Full-Stack Web Development. Skilled in HTML, CSS, JavaScript, React, and the MERN stack (MongoDB, Express.js, React.js, Node.js). Built and deployed a ticket booking platform (Quick Tickets) and developed machine learning models for Credit Card Fraud Detection and Customer Churn Prediction using Python, Pandas, Scikit-learn, and XGBoost. Proficient in REST APIs, Git, and responsive UI/UX design. Passionate about building scalable, user-focused, data-driven applications.

Education

Chameli Devi Group Of Institutions, Indore (University RGPV ,Bhopal)
Indore

B.Tech In Computer Science And Engineering | CGPA: **6.9** / 10 — 06/2022 - 05/2026

Shri Cloth Market Vaishnav H.S. School
Indore

High School Certification (12th), Percentage: 65% — 08/2019 - 05/2022

Shri Cloth Market Vaishnav H.S. School
Indore

High School Certification (10th), Percentage: 59% — 06/2019 - 05/2020

Skills

Languages: Python · JavaScript · HTML5 · CSS3

Libraries/Tools: React · Node.js · Express · MongoDB · Git · Postman

Machine Learning: Scikit-learn · Pandas · NumPy · Matplotlib · Seaborn · XGBoost · SMOTE

Others: REST APIs · Razor pay · Google Colab · MongoDB Atlas

Projects

Customer Churn Prediction
github.com/whenvanshcodes/churn-predcition

- Predicted churn using Telco dataset with Logistic Regression, Random Forest & XGBoost.
- Performed EDA and feature engineering using Pandas and NumPy.
- Evaluated models using ROC-AUC and F1-score.

Credit Card Fraud Detection
github.com/whenvanshcodes/cc-fraud

- Built ML model using SMOTE and XGBoost to detect fraudulent transactions.
- Evaluated models with precision, recall, F1-score, ROC-AUC.
- Visualized results using Seaborn and Matplotlib.

Quick Tickets – Ticket Booking Web App

- Created a MERN app for ticket booking with payment and login features.

Experience

Bellway Infotech
Indore, India

Frontend Development Intern — 05/2025 - 07/2025

- Built responsive UI using React.js, reducing mobile load time by 25%.
- Integrated REST APIs to serve dynamic content for 100+ user sessions.
- Improved Core Web Vitals by optimizing rendering and image delivery.
- Collaborated via GitHub in a 3-member development team.

Certification

Data Science with Python — Geek for Geeks Started: June 2025
